Main figures - Year 2020						
Population (1 st January)	6 951 482	persons				
Area*	110 996	km ²				
Currency	BGN	lev				
Nominal GDP at current prices	60 643	million EUR				
GDP per capita at current prices	8 486	EUR				
GDP per capita at purchasing power	16 300	PPS				
Harmonised index of consumer prices	1.2%	change over previous year				
Unemployment rate	5.8	% of labour force				
Exports (goods & services)	32 641	million EUR (current prices)				
Imports (goods & services)	31 562	million EUR (current prices)				
Balance (goods & services)	1 079	million EUR (current prices)				
Exports of agricultural products	4 825	million EUR (current prices)				
Imports of agricultural products	3 969	million EUR (current prices)				
Current account balance	1.2	% of GDP				
General government balance	-3.0	% of GDP				
General government gross debt	25.7	% of GDP

Evolution of agricultural income (*) compared to wages

^(*) The so-called indicator A is the real net value added at factor cost of agriculture per annual work unit (AWU). The net value added at factor cost (factor income) is calculated by subtracting the consumption of fixed capital from gross value added at basic prices and adding the value of subsidies less taxes. The AWU is defined as the work volume corresponding to one full-time employed worked.

^(*) UAA = Utilised agricultural area.

^(**) Economic size: The standard output of an agricultural product (crop or livestock), abbreviated as SO, is the average monetary value of the agricultural output at farm-gate price, in euro per hectare or per head of livestock.

There is a regional SO coefficient for each product, as an average value over a reference period (5 years, except for the SO 2004 coefficient calculated using the average of 3 years). The sum of all the SO per hectare of crop and per head of livestock in a farm is a measure of its overall economic size, expressed in euro.

^(***) LSU = Livestock units. A LSU is equivalent to a dairy cow. The number of animals (heads) is converted into LSU using a set of coefficients reflecting the feed requirements of the different animal categories.

6.2. FARM STRUCTURE

Structure of farm labour force

2016
